

## Cable structure

Core type: Composite buffered  
Strain relief elements: Kevlar  
Outer sheath material: PUR  
Outer sheath colour: Orange

## Temperature range

Laying, min: +5°C  
Laying, max: +50°C  
Operating, min: -30°C  
Operating, max: +70°C

## Other data

Flame-resistance acc. to IEC 60332-1  
Longitudinally water-tight acc. to IEC 60794-1-2-F5  
Resistant to hammer impact acc. to IEC 60794-1-2-E6  
Bending cycles acc. to IEC 60794-1-2-E6: 500.000  
Oil-resistant

## Application

These HELUCOM® cables were designed as mobile field cables. They are easily wound up on a drum and are very tension-proof. As the outer sheath is tightly anchored on the aramid braiding, it is especially suitable for mobile use. The advantage of these cables is evident especially where mobile fibre-optic lines are to be installed, such as for drag chains, TV transmission, supervision of protected areas, etc.
